ABOUT

Full Stack Developer with 1.8 years of experience in MERN stack development, React Native, and AWS cloud deployment. Strong in building scalable applications, API integration, and delivering performance-focused solutions.

EXPERIENCE

Aideah Data Works (Previously Eparampara Technologies)   July 2024 - Present

Working on MERN Stack applications with React.js, Node.js, Express.js, and MongoDB.
Developing responsive UI, API integrations, and CRUD functionalities.
Deploying and managing applications in AWS environment.

MernSatck / Intern Academy of skill development   Sep 2022 - Oct 2022

Built and deployed multiple full-stack applications using React.js, Node.js, MongoDB, and Express.js. Created responsive UI with React and managed state effectively using hooks. Integrated REST APIs and performed CRUD operations with backend and MongoDB

PROJECTS

E-commerce Store   Link to Demo

Developed an interactive eCommerce store application to simulate real-world online shopping experiences. Implemented responsive and user-friendly UI using HTML, CSS, and JavaScript. Integrated essential features such as product browsing, adding items to the shopping cart, and viewing product details.

Saas Landing Page - VirtualR   Link to Demo

Created a dynamic and visually appealing SaaS landing page for VirtualR using React.js and Tailwind CSS. Designed a responsive and modern layout, ensuring a seamless experience across both mobile and desktop devices. Focused on performance optimization, ensuring fast load times and smooth transitions with React.

Spotify clone   Link to Demo

Built a Spotify clone application to replicate the core functionalities of the popular music streaming service. Utilized React.js for dynamic, state-driven components and smooth navigation throughout the app. Designed a responsive, user-friendly UI using Bootstrap, ensuring the app works seamlessly on mobile and desktop devices.

EDUCATION

2020 - 2024   Annamalai University FEAT — BE - Computer Science   (GPA: 8.3/10)

SKILLS

Programming Languages :	Js, Java, Python
Frameworks and Libraries :	React.js, Express.js, Node.js
Databases :	MySQL, MongoDB
Devops :	Git/Github, Linux, Docker, Colud - Aws, Automation-Terraform
